

## **“NORDIC RIVER” The hundredth shipment at BURRAP Terminal, Dampier**

An ammonia carrier, “**Nordic River**” has been loading ammonia cargo at BURRAP Terminal, Dampier, for past 3 Years.

**Nordic River** was the vessel who loaded the 1<sup>st</sup> shipment of Burrup Terminal in 2007. Coincidentally this time she was the one to load the 100<sup>th</sup> shipment of the terminal as well.

On **19<sup>th</sup> May** Burrup Terminal arranged a small presentation ceremony on board to celebrate the 100<sup>th</sup> Shipment. Crewmembers were in high spirit to celebrate this occasion along with the Terminal.

As High Profile Guests from Burrup Terminal & Dampier Port arrived at the vessel, all of them received a warm welcome, and then a guided tour of the vessel was organised. The guests, who were explained in detail regarding the ship’s operation, showed a great interest. All the queries were explained by the competent crew to their satisfaction. Everyone was impressed with the Vessel and the operational policies, so the Vessel and her Crew were praised openheartedly.

Vessel was presented a Plaque in hands of the Director of Burrup Fertilizers for the successful 100<sup>th</sup> Shipment, along with a small Memento for this occasion in the Hands of DPA – Dampier Port.

The master conveyed the Best wishes on behalf of the Vessel and KLSM Tokyo, and promised them to continue with safe operation in future & to maintain cordial relationship with Full support from KLSM Tokyo.

The Ceremony was followed by delicious lunch prepared by the good Cook.

Before bidding a good bye, the Crew were Invited by Dampier Port next call to tour the Port Premises and to observe their operations, while the Burrup Terminal Director Invited Crew to the Ammonia Plant. On this welcome note, Guests left the Vessel well satisfied.
