

## KLINGENBERG/KLSM JOINT MAJOR exercise for Emergency Response 27<sup>th</sup>, Feb, 2012

On the 27th of February 2012, an emergency exercise was carried out with “K”LINE. It was unfolded that our managed vessel, a VLCC “FUJIKAWA”, collided with a general cargo ship at Sata-Misaki, after her departure from Kiire port. The cargo vessel's bow was stuck deep into FUJIKAWA's hull, which resulted in an oil spill. After the whole story, a mock press meeting was held.
